Balgrist University Hospital, Zurich

International Symposium for Musculoskeletal Tumors

Advances in Sarcoma Treatment

International Symposium for Musculoskeletal Tumors

Advances in Sarcoma Treatment

On November 30th, 2018, Balgrist University Hospital will hold its interdisciplinary Musculoskeletal Tumor Symposium in collaboration with the Comprehensive Cancer Center Zürich.

Several world-renowned and national leaders in sarcoma treatment will present first-rate lectures and impart academic knowledge about this rare but important disease.

The program consists of presentations on the latest developments and challenges in the diagnosis and treatment of sarcomas of the extremities. Close interdisciplinary cooperation between the various disciplines is a prerequisite for successful sarcoma treatment. For this reason, the speakers offer insights into the latest developments in their field.

The Musculoskeletal Tumor Symposium is intended for orthopaedic surgeons, oncologists, radio-oncologists, radiologists and primary care providers. It will be held in English.

In collaboration with:

NEUTROMEDICS

Program

Friday, November 30th, 2018

09.00	Welcome	D. Müller
09.05	Comprehensive Cancer Center	R. Stahel
09.20	Sarcoma treatment in Zurich	D. Müller/C. Britschgi
09.50	Surgery: Current challenges and future solutions	S. Lozano Calderón
